

Simple Steps to Help Bees

- Say “**NO**” to pesticides (insecticides, fungicides, and herbicides like RoundUp)

Have Mom & Dad check out this link about neonicotinoids:

- **Plant a wildflower garden** in your yard or community!
- **Let some grass grow tall in your yard.** Little flowers, bees love, will grow!
- **Balcony gardens** and **hanging baskets** help bees!
- **Plant trees** like apples, pears, plums, and cherry (and shrubs like blueberries).
- **Let dandelions live!** They're pollen-rich sources for bees.
- **Grow** some of your own food! Flowering vegetables and fruits are good for bees.
- **Support** local, organic farms.
- Love honey? **Support your local beekeepers** or learn about beekeeping!
- **Share your knowledge** with friends and family!
- Support [Earth Justice](#), an organization helping bees.
