# **LOOK AT WHAT'S HAPPENING**

# Meet the characters

Rico, the protagonist we  
all can be

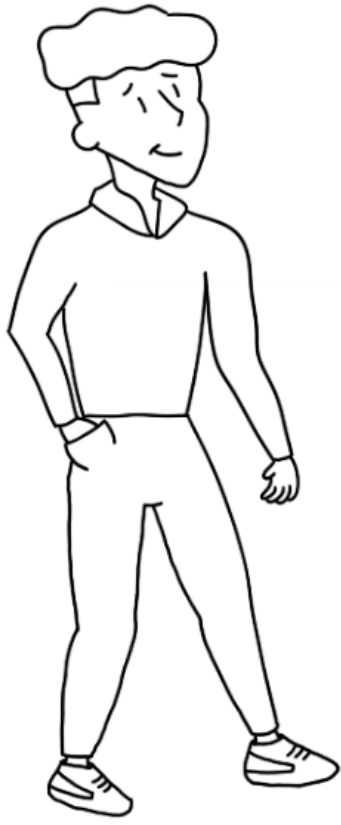

A toxic cloud of carbon  
dioxide

A tree stump, the  
remnant of forest

A "sparkling" stream that's  
actually polluted

One day...

Rico was walking

and saw something .

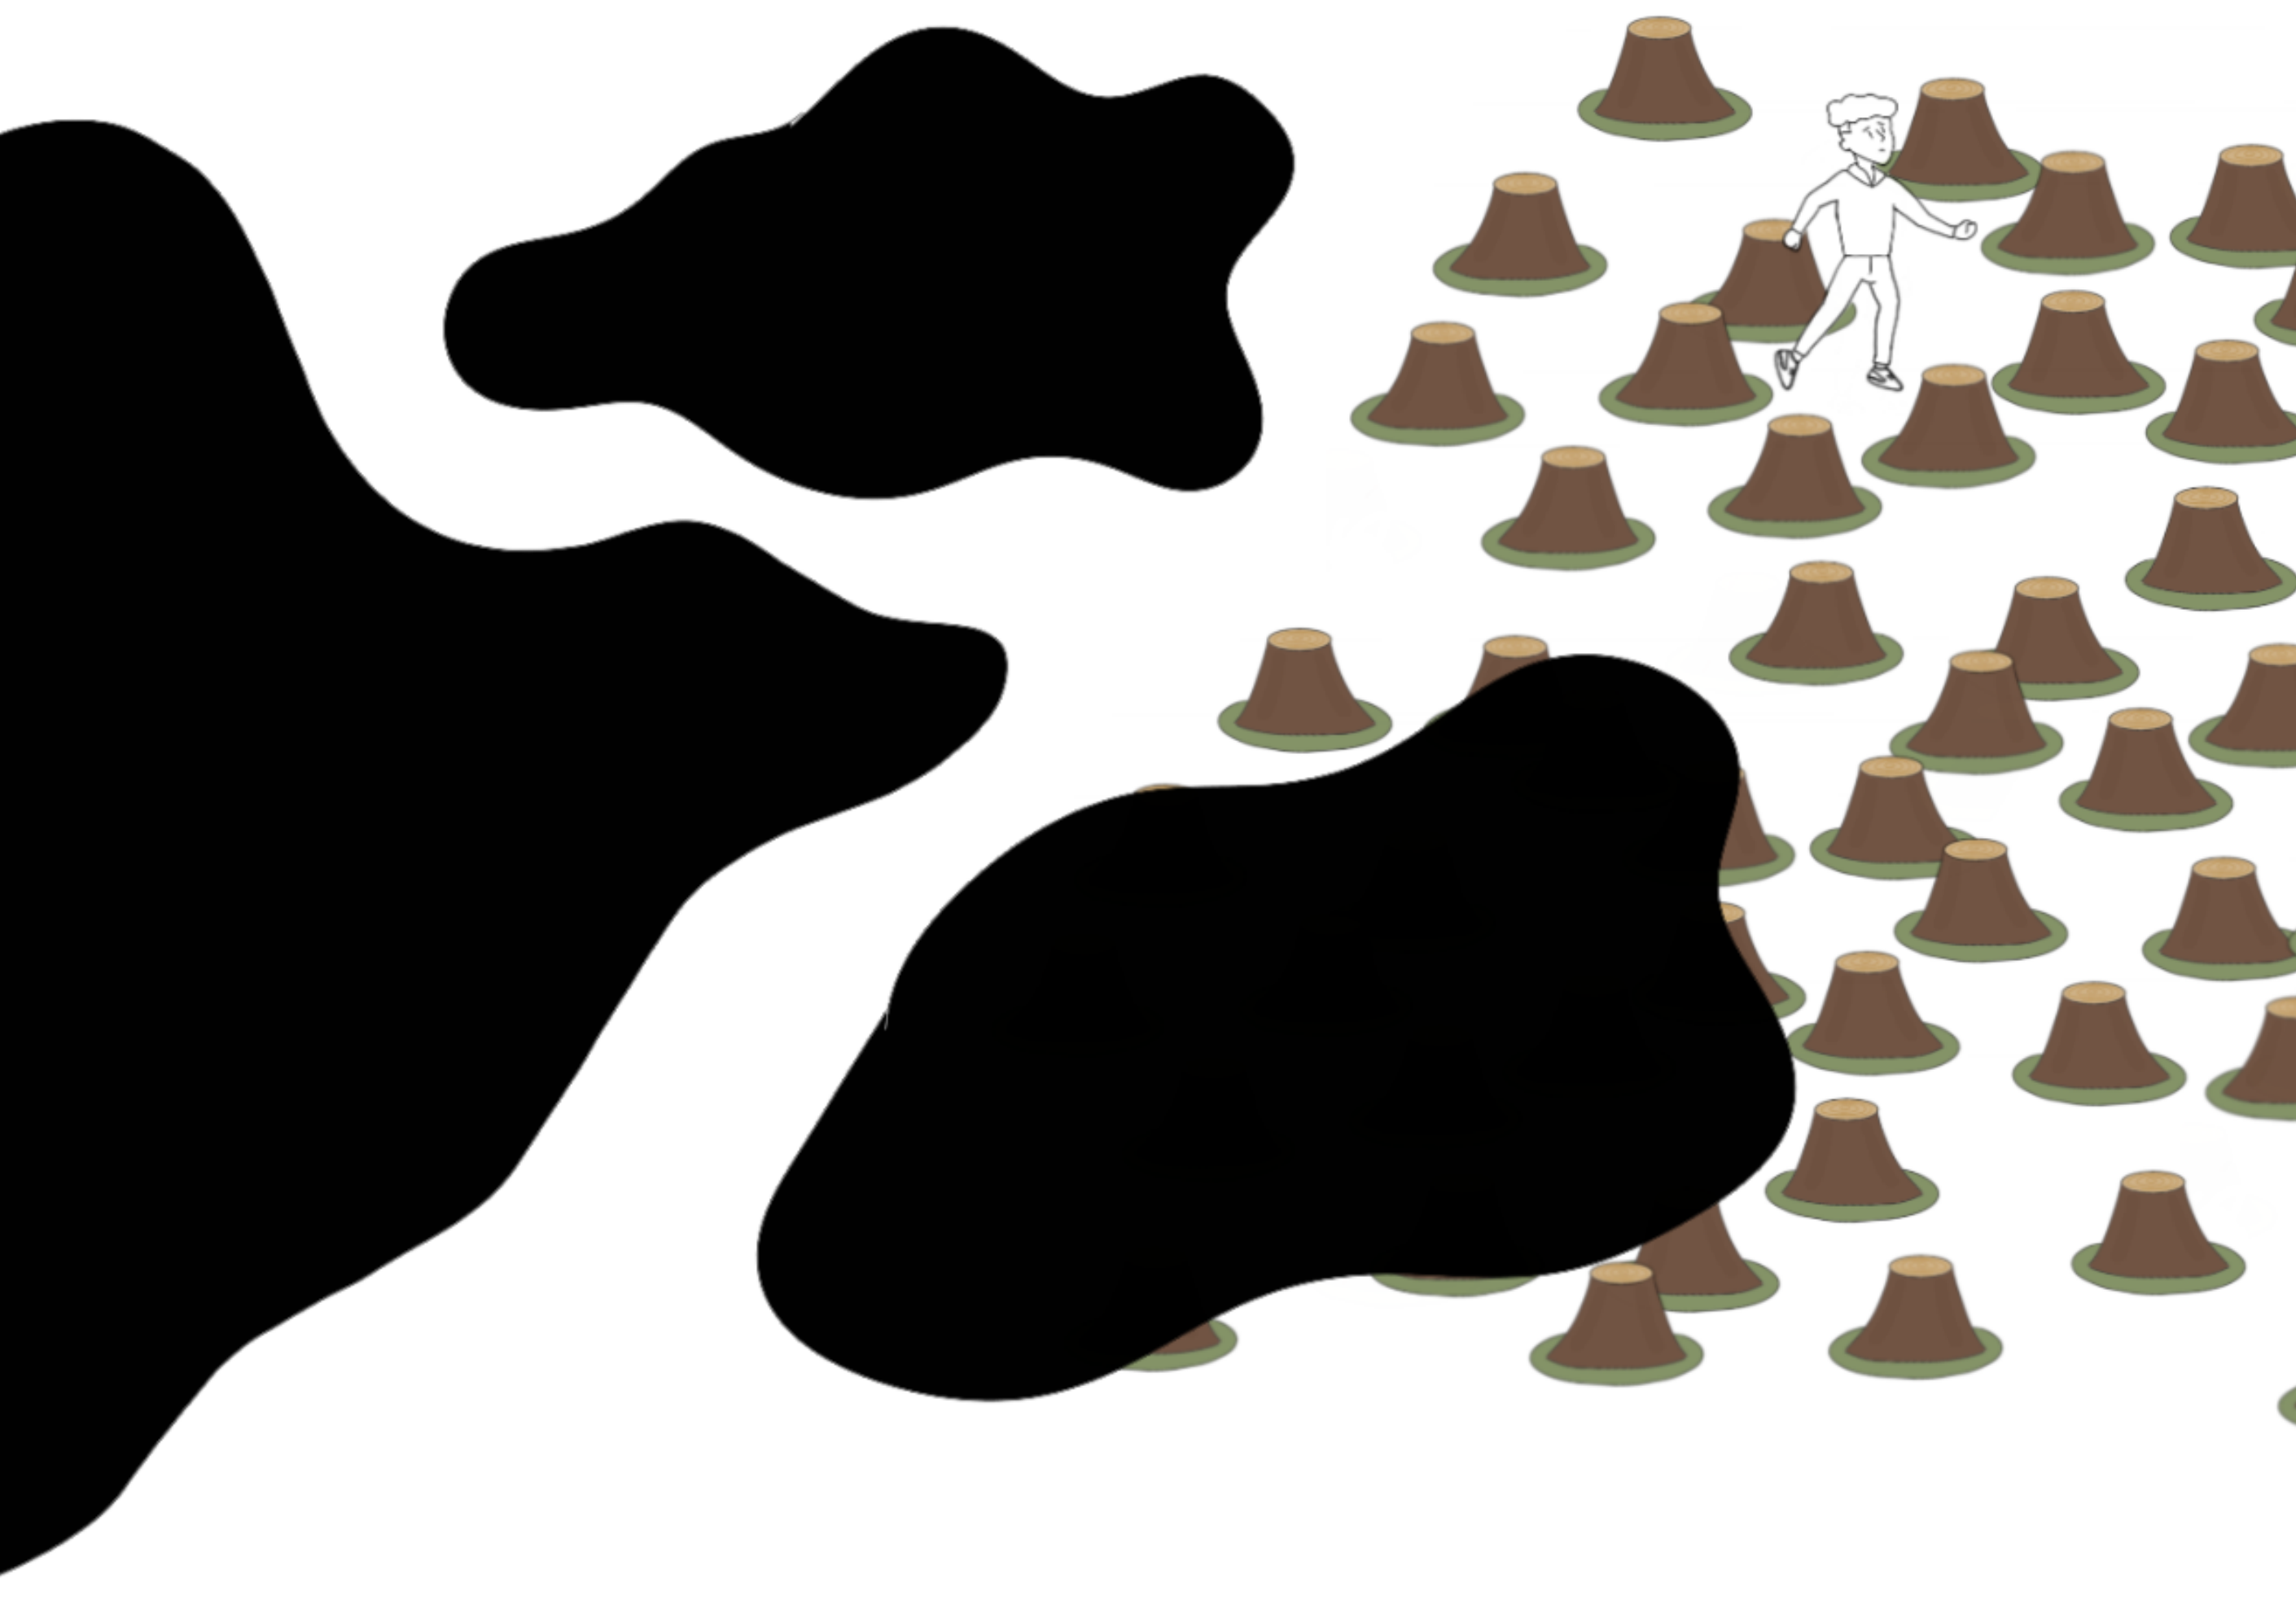

Clouds overtook him,

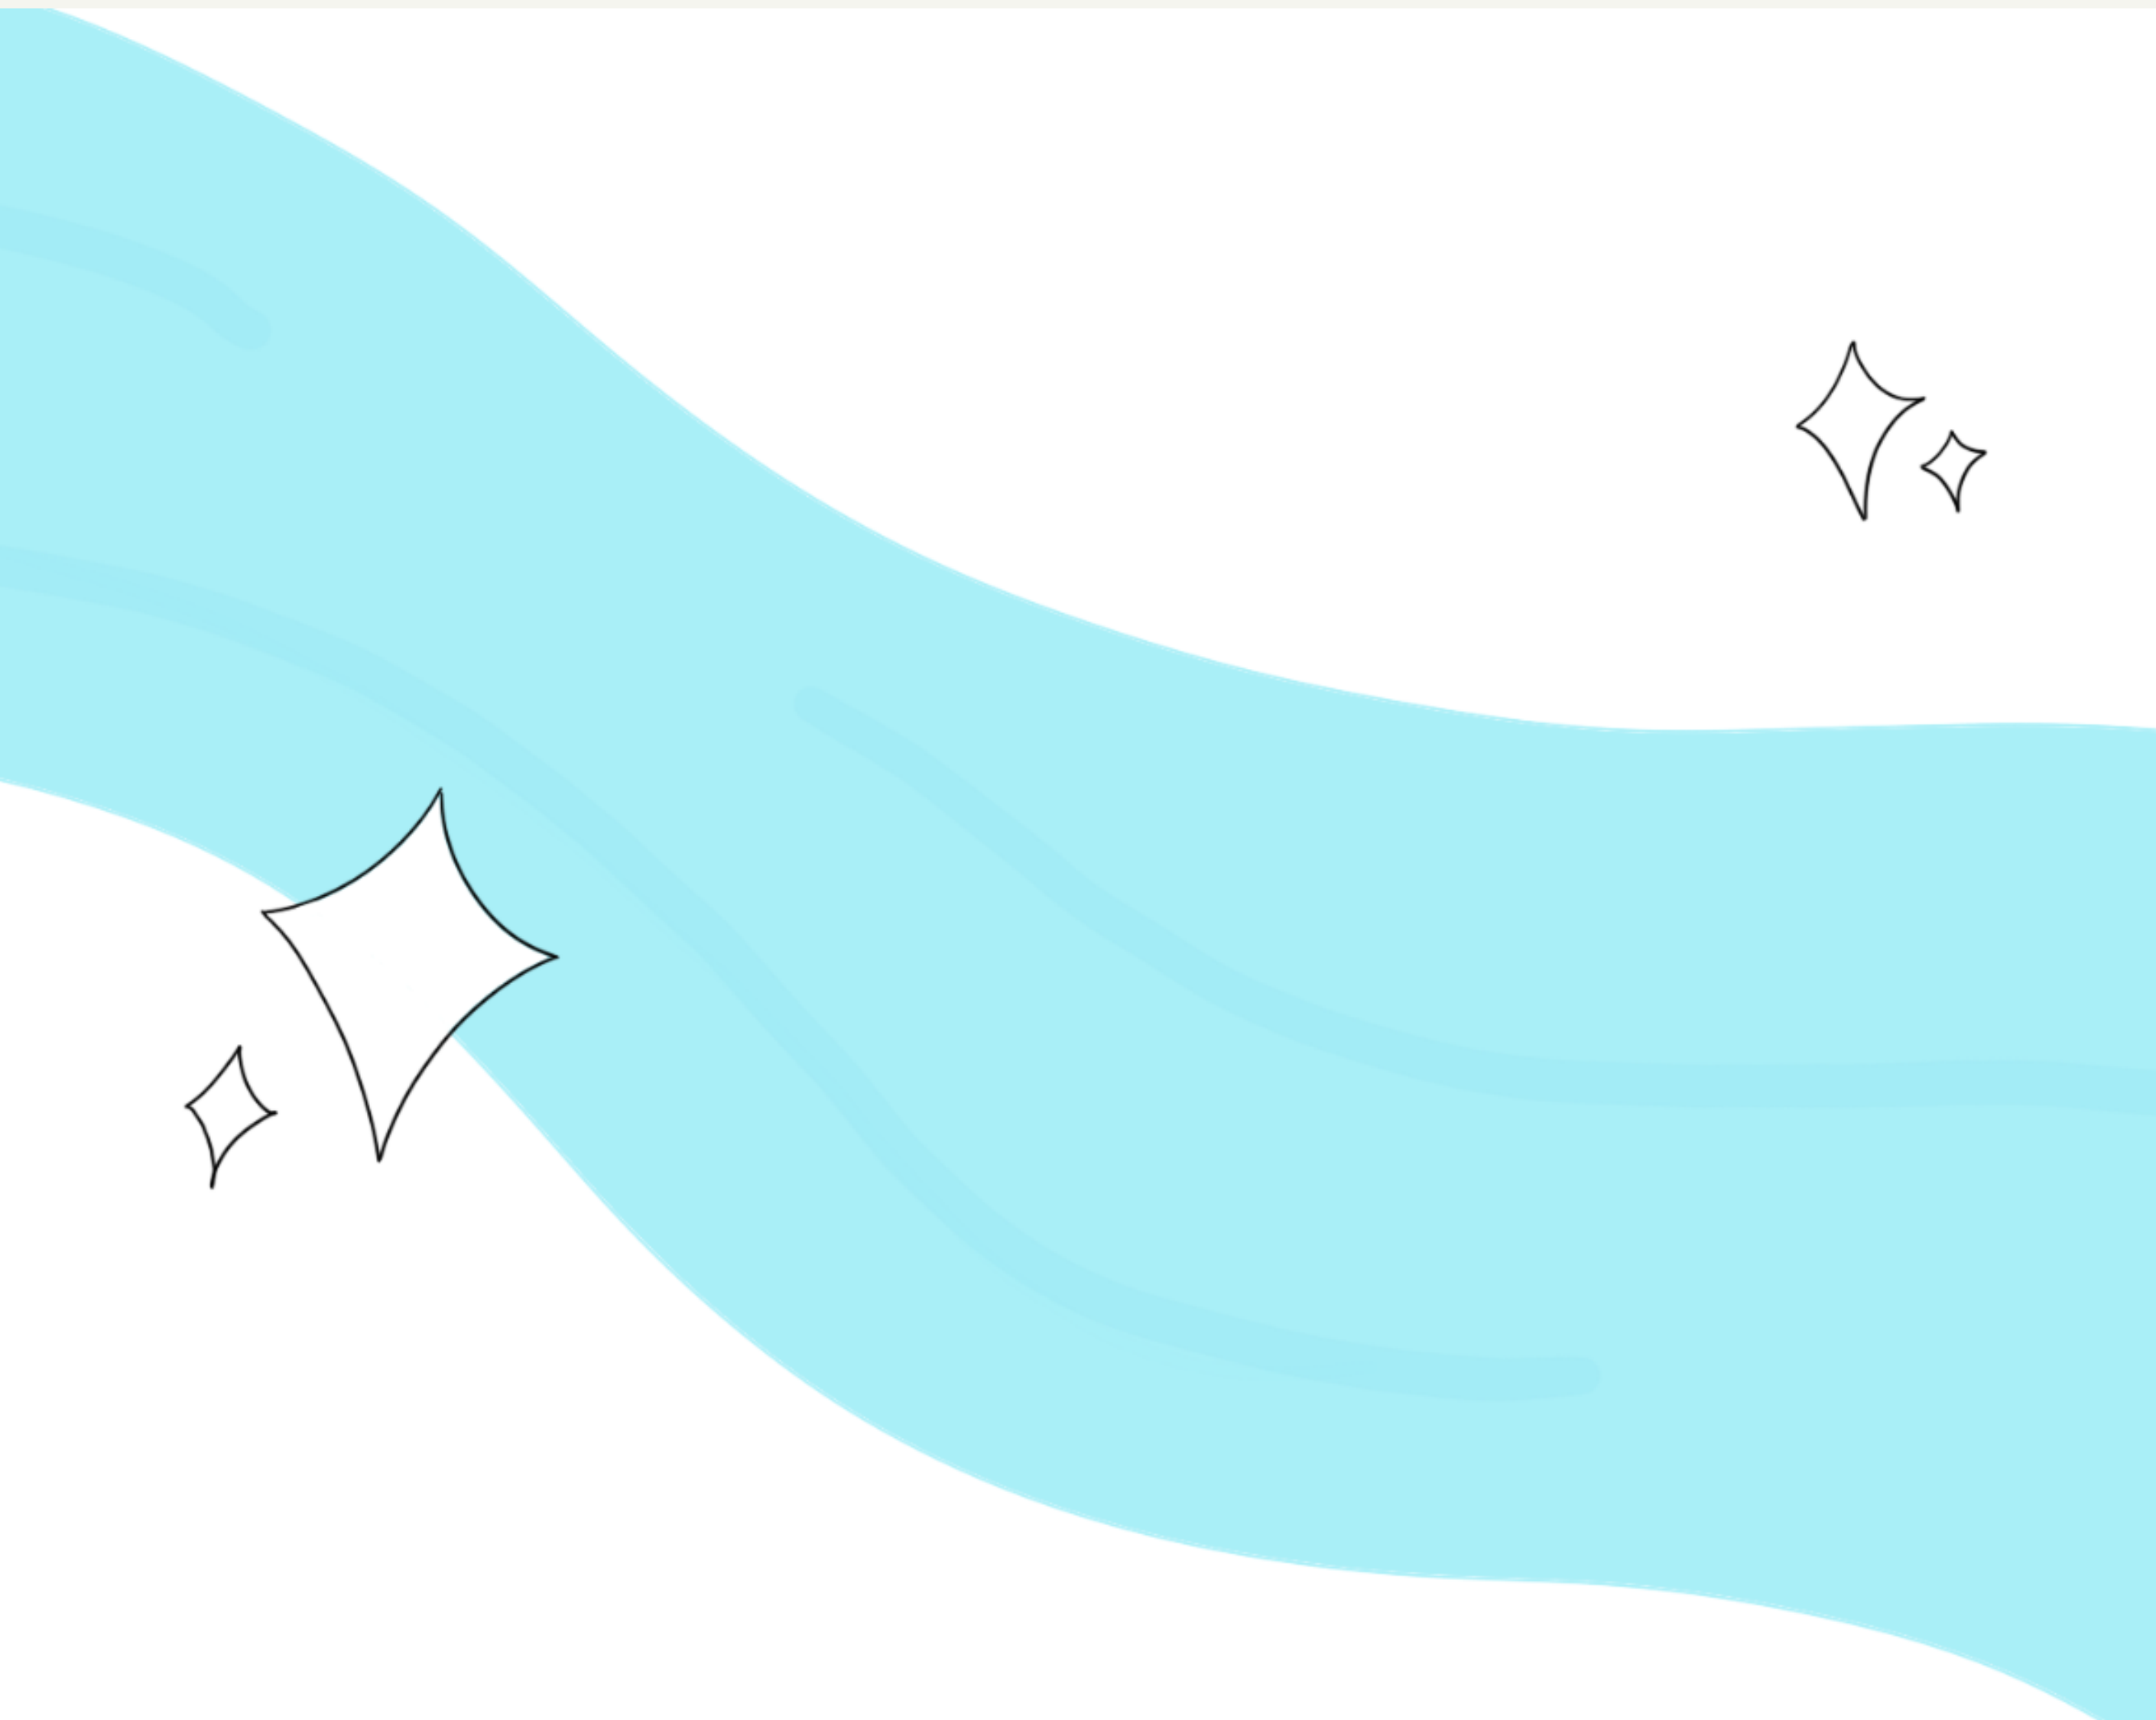

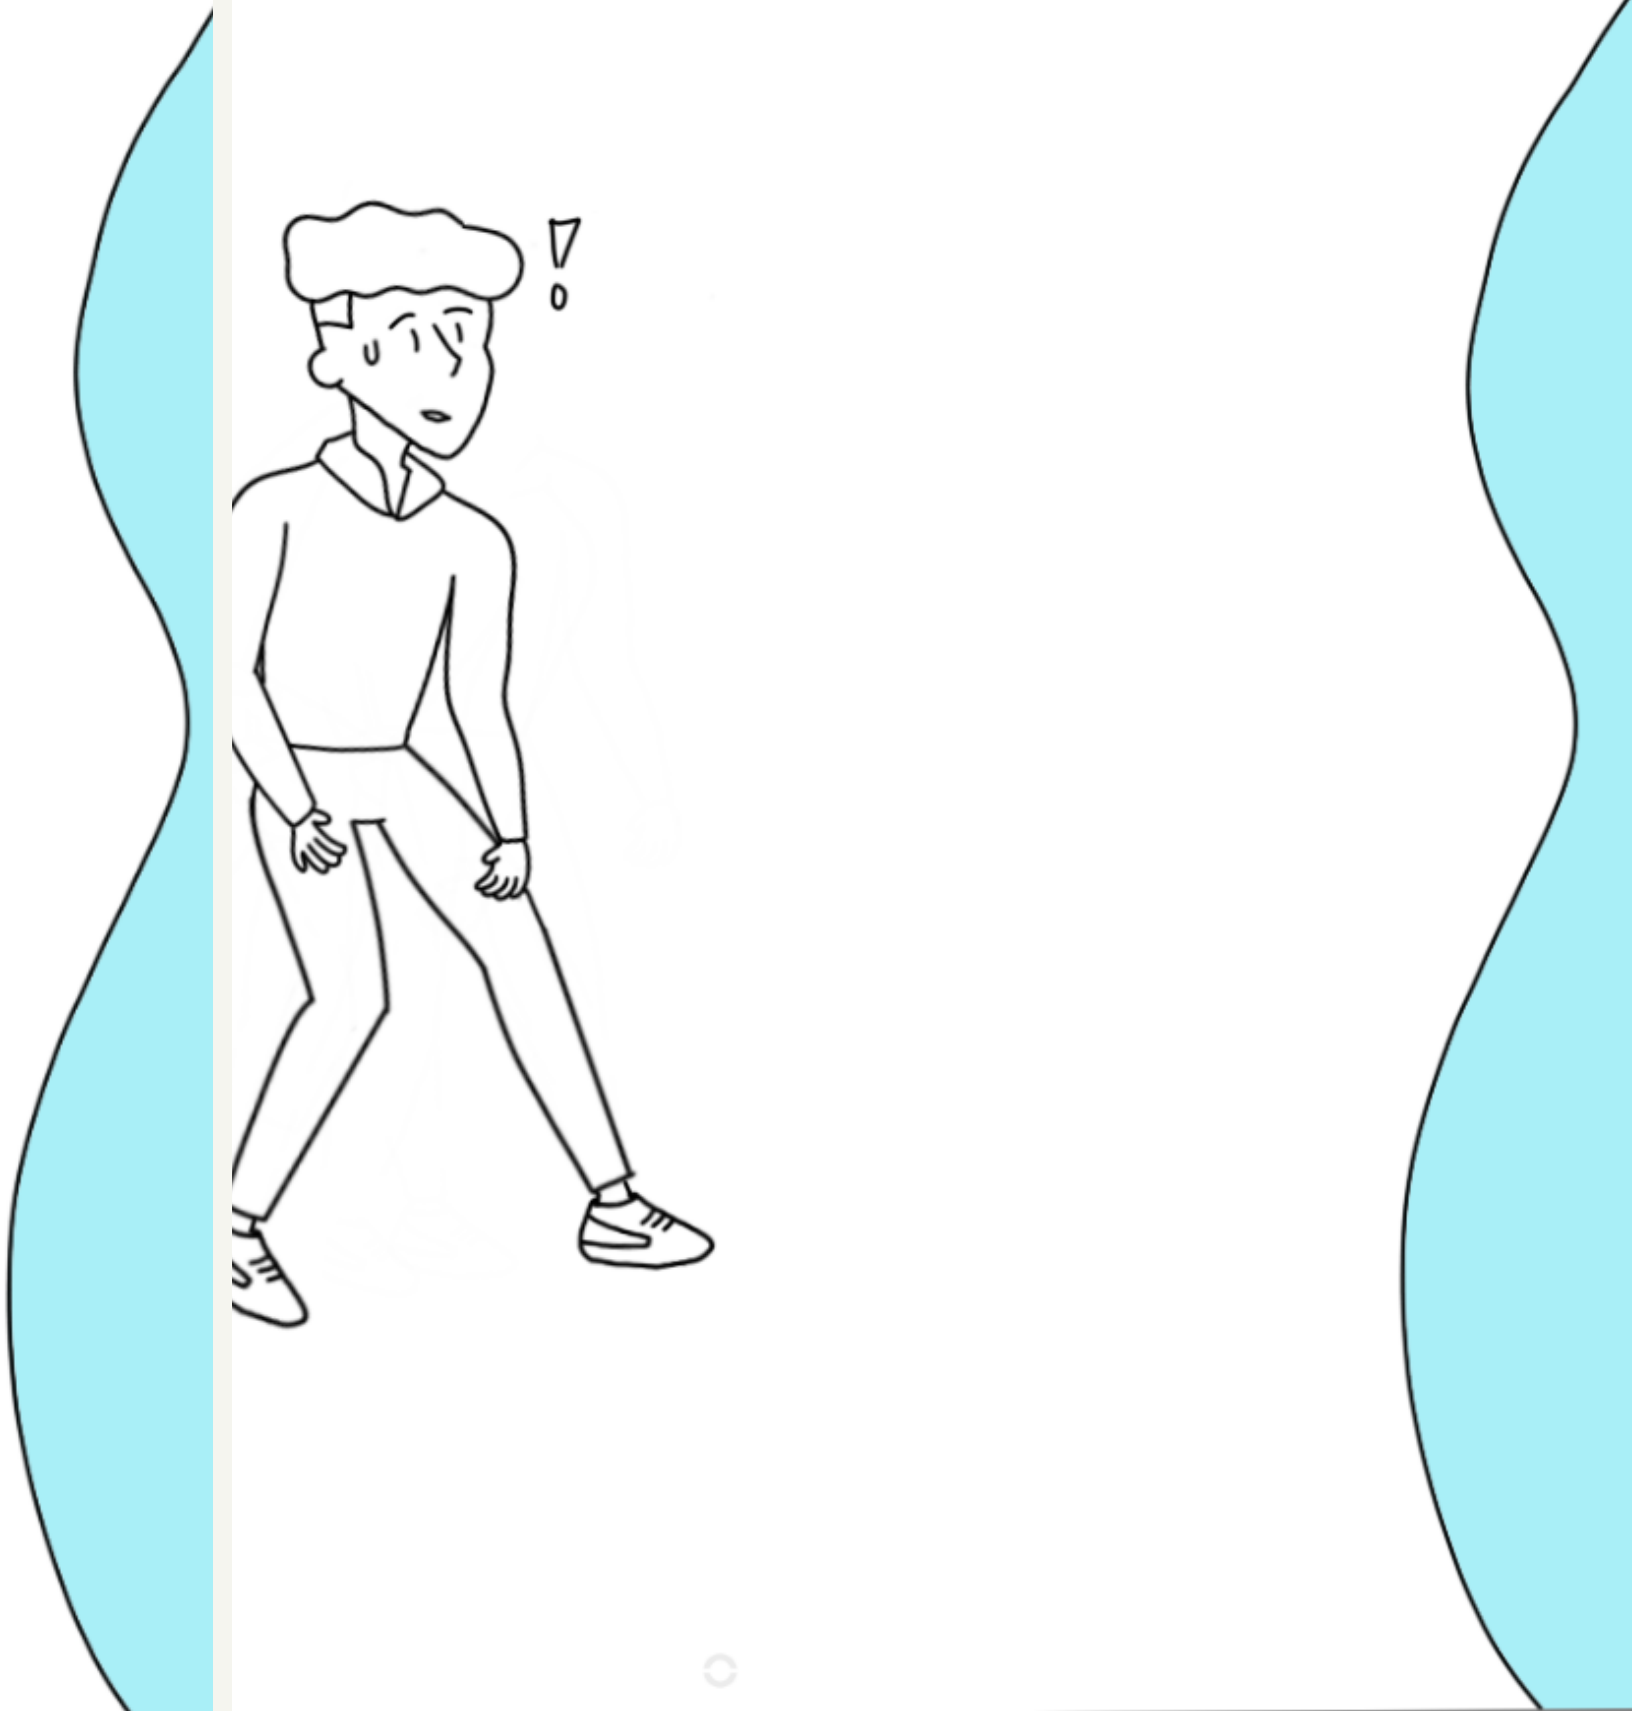

so he ran.

Exhausted,

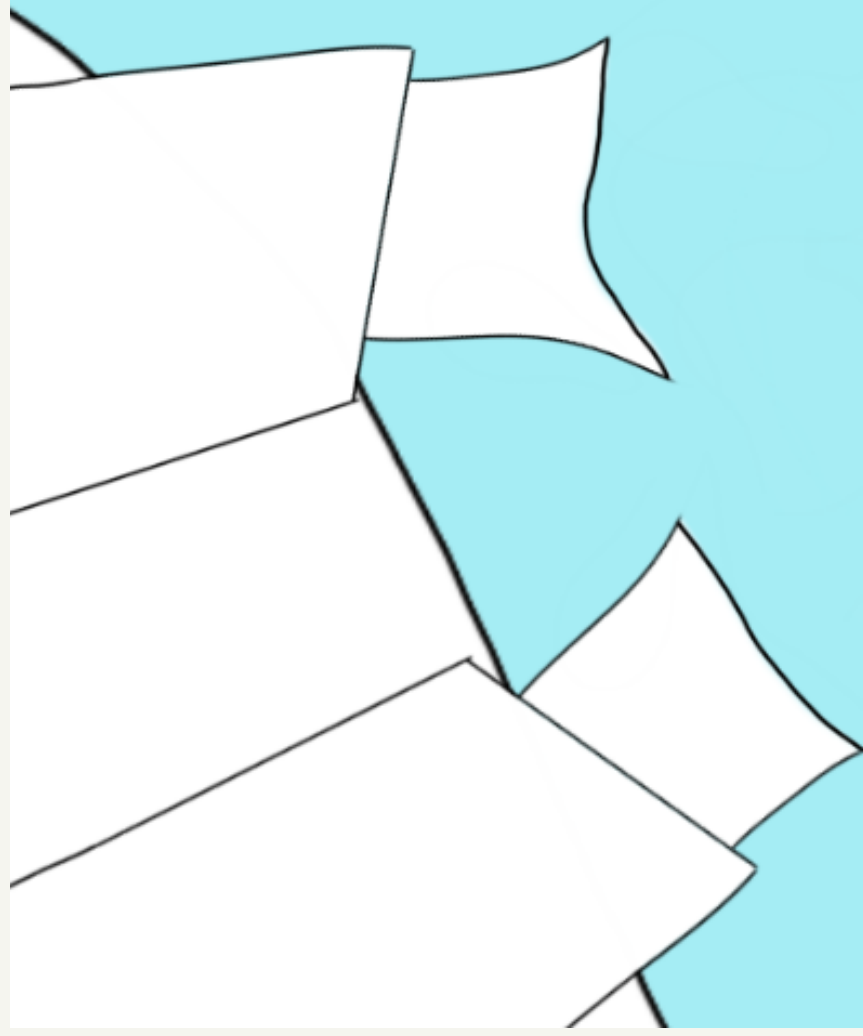

he came across a river.

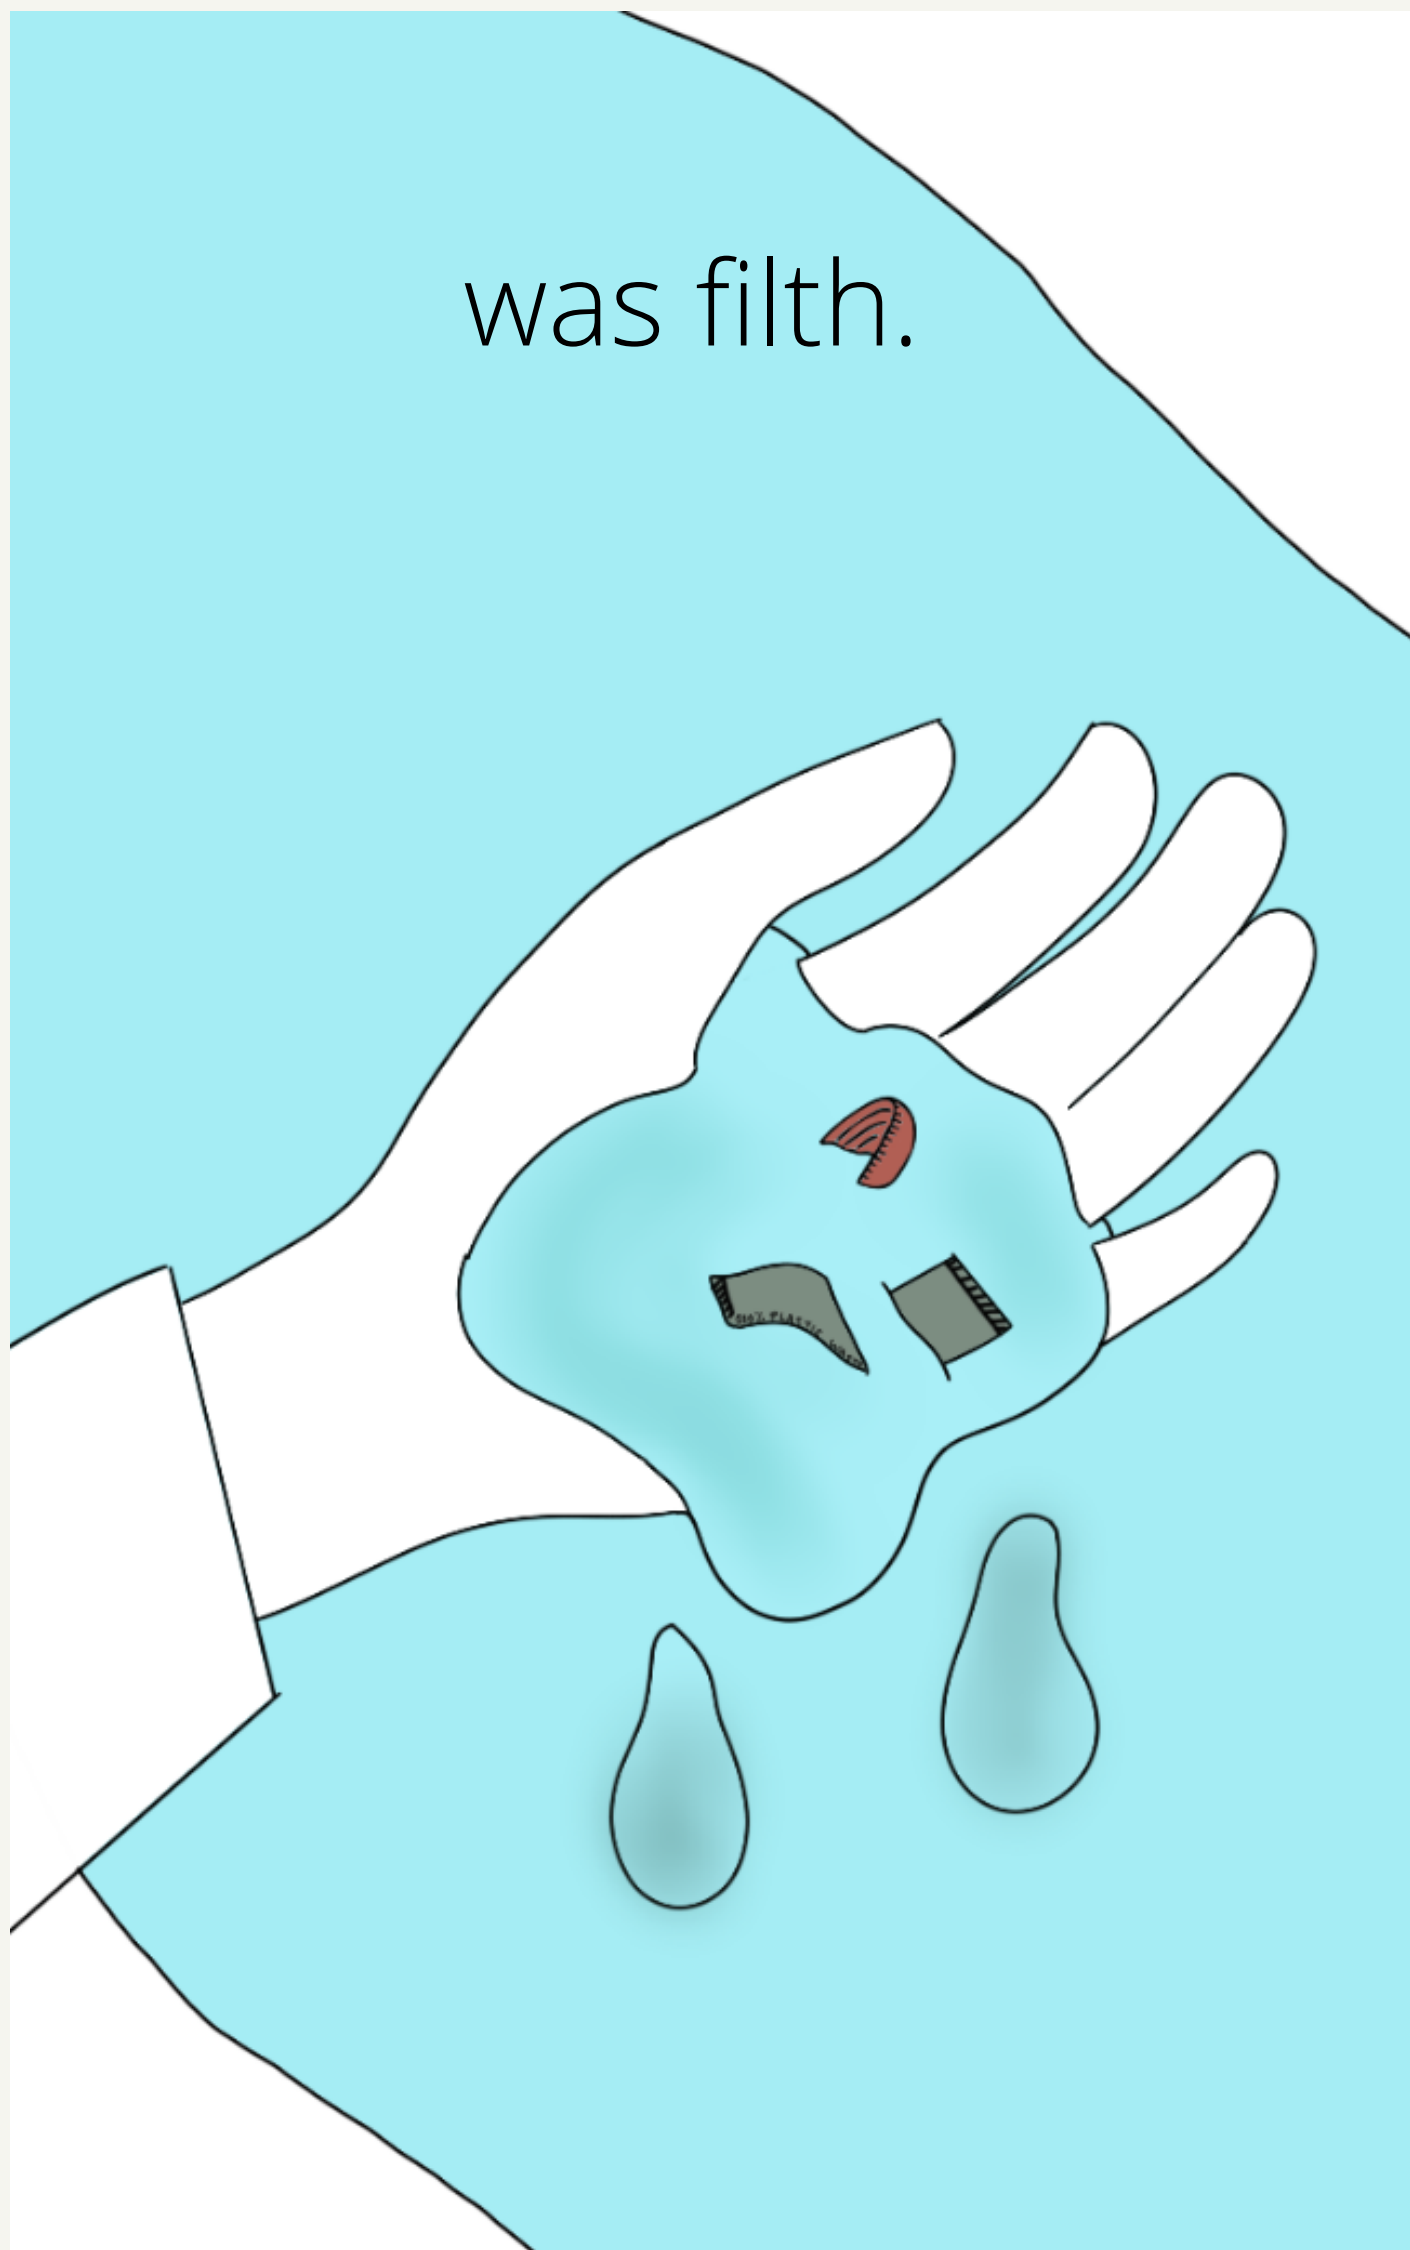

He stopped for a drink  
and dipped his hands in  
the water,

But all he got

was filth.

It's our job

To look at what's happening

**AND  
SPARK  
CHANGE**
